Our Job - Your Success

At B&L Bolt we consider it our job to make you successful at your core business. Managed inventory to your specification, in the form you desire, and when you need it is our objective. 20 years servicing industry has allowed us to put efficient systems together to meet your needs.

Inventory Management Programs

- Bin Stocking
- On Site Managed Inventory
- Vendor Site Managed Inventory
- Just in Time Inventory
- Custom Procurement, Reducing Non-Value Added Tasks

Quality Control / Inspection

Sorting, inspection and certification services are available through B&L Bolt. Our conscientious staff is ready to perform the tedious, yet critical inspection for your organization to ensure that your end product is shipped without defect.

Packaging

Whether boxed or bagged, B&L Bolt recognizes that accurately packaged components add value to its customer's processes and business.

Machining and Manufacturing

B&L Bolt competitively quotes, procures and retains stock of custom components for its customers on a regular basis. Injection molding, machining, and coating are among the services provided.
